

● The Lebanese **Telecommunications Regulatory Authority (TRA)** published in the Official Gazette on April 24, 2008, four major decisions ensuring an improved structure of the Lebanese telecommunications market. These decisions, entering into effect as of their publication date in the Official Gazette, are related to the IPTV trial project, to the licenses authorizing the usage of VSAT within certain technical specifications, to the issuance of the SMP regulation and to the GSM frequencies granted to Ogero as part of a pilot project.
