

Media upgrade Beirut telecom workshop calls for digital broadcasting

BEIRUT: The Telecommunications Regulatory Authority (TRA) on Friday launched a workshop on television and radio broadcasting in Lebanon. The head of the TRA, Kamal Shehadi, who made the opening speech, underlined the need to shift from analog

television broadcasts to digital broadcasts. Other speakers, including Telecommunications Minister Jibril Bassil, urged foreign investors to shift their focus on media investments in Lebanon, including the creation of a media city. — *The Daily Star*
